

KLOVE Radio is the only station my family I listen to because it is appropriate for the whole family. We love the music and the DJ's and we tell so many of our friends and family about this station every day. We would hate to lose it. The other local stations play music I don't want my kids to hear and the comments made on these stations are unchristian. Please don't take this station away from us because there are many families who want and need this type of programming. There is value in national and regional services such as KLOVE on the FM translators!
